Create Your Own Craft Class

Studies show that crafting can help our mental health. It reduces stress, calms the mind, and releases endorphins. Crafting gives us a distraction from negative thoughts and worries. It even lowers our heart rate and blood pressure.

Adults are of course welcome to craft in the shop any time during store open house, choosing from our seasonal craft menu. If you would like to do a project with a group of friends, either during store hours or in the evening, this flyer is for you!

To create your own craft class, invite between four and nine friends to join you. Then work with us to select content, a date and time for your gathering. Crafting with friends is social and even more fun!
